Canyon River Ranch Completes It's 2021 Syrah Grape Harvest!

Canyon River Ranch has a private vineyard where we produce a limited release Syrah wine for distribution to CRR owners. This year, the harvest took place about a week earlier than usual with the highest sugar levels we have ever recorded. The hot summer temperatures for an extended period of time is the main factor that leads to an earlier ripening. Our groundskeeper, David, noted that this year's juice to berry ratio was a bit lower, which will most likely yield a richer and darker wine. The 160 gallons of berries are now being processed by our winemaker, Flint Nelson at Wit Cellars and should be ready in about 18-24 months!

Red's Guided Pheasant Hunts

It's the perfect time of year to book a guided pheasant hunt with Red's Hunting at Canyon River Ranch. The Mount Baldy Ranch Pheasant Hunting Preserve is located just minutes from the shop!

When you sign up for an upland hunt with Red's, you are assured of a high quality experience. The spacious preserve is nestled in prime terrain ranging from creek bottoms to basalt rimmed plateaus with sage brush flats. We have plenty of room to accommodate multiple parties and large groups.
